5	16:22	17:12	0:50:00	PANEL DISCUSSION - 1 Hybrid Workplace Models Will Require a Cross-Functional, Continuous Approach to Managing Risks To and From Your People As organizations embrace a "work from anywhere" hybrid workplace model, CSOs will have to manage the safety and security of people, assets anywhere and at all times. Coming out of the pandemic, the primary focus for organizations will be on their people. As such, this panel will focus on a holistic People Risk Management (PRM) approach addressing risks to people (Duty of Care) and 'people risks' to the organization (compliance, tax, insider risk, etc.). This 360-degree view of risk for each person will require a multidisciplinary approach across all people's support domains including HR, EHS, IT, Physical Security, Legal, Compliance, and more. This PRM approach will provide continuous visibility into the risk profile for each person and enable proactive support as well as early indicators of developing threats to be mitigated. <i>Moderator: Mr. Bruce McIndoe, Founder, WorldAware and Risk Advisor, McIndoe Risk Advisory</i> <i>Mr. Suraj Shankpal, Director - Risk Consulting Forensic Intelligence, PwC India</i> <i>Mr. Prasun Dixit, Head of Global Security, Fidelity International</i> <i>Mr. Arun Prakash, CPP, CFE, CBCP, Head of Corporate Security (Physical) and Investigations at Microsoft India</i> <i>Mr. Sanjeev Sabharwal CPP, BCMS, Senior Director and Head Global Security Services - South Asia at Credit Suisse</i>

10	18:10	19:00	0:50:00	PANEL DISCUSSION - 2 Corporate Security Related Laws, Standards, Regulatory Compliances and Guidelines - How to stay informed! As businesses get regulated and compliances get stringent in the rising Indian economy, the physical security departments too are being increasingly subjected to meet their legal and regulatory obligations, while following the established mandatory standards, guidelines and best practices set and suggested by government and industry bodies pertaining to their area of operations. In such a scenario, it is vital that CSOs understand these laws, standards and guidelines as they apply to them and their implications on an ongoing basis and communicate them to their teams for developing or modifying the processes to remain always compliant. This session will discuss the various acts, the laws, and the standards & guidelines as they apply to security departments and how to communicate them within their own department as well as across the enterprise. Can technology help? <i>Moderator: Mr. GB Singh, Editor, SECURITY TODAY</i> <i>Dr. Firoze Zia Hussain, CPP, PSP, PCI - CSO, Delhivery</i> <i>Adv. SK Sharma, Shakti Legal Compliance India</i> <i>Capt. Sanjay Sharma, Global Security Head at Wipro Limited</i> <i>Mr. Sumit Pahwa, Co-founder & CEO at Complinty Technologies https://www.linkedin.com/in/spahwa/</i> <i>Mr. Sanjeev Sehgal, MD, Samridhi Automation & Convener - BIS Panel on Video Surveillance Systems, LITD26 Committee</i> <i>Speaker from SIS"</i>
11	19:00	19:05	0:05:00	Audience Poll
12	19:05	19:55	0:50:00	PANEL DISCUSSION - 3 Is Physical Security Keeping Pace With the Digital Transformation of Enterprises? Now, more than ever, security is a big issue for many organizations the world over. Unfortunately, physical security measures, strategies and tools are behind the curve – even more so in comparison to the digital technologies that have evolved in the recent past and are available today. While many businesses are actively focused on a digital transformation, and for good reason. However, upgrading their physical security and building it around digital platforms to provide a seamless, safer and more assuring experience to the users would go a long way in ensuring better productivity for the enterprise. This panel will discuss the available technologies, platforms, user expectations and what can be done to realise an integrated platform delivering a satisfying experience to all stakeholders. <i>Moderator: Mr. Rajan Luthra, Chairman's Office - Head-Special Projects, Reliance Industries Limited</i> <i>Capt. Shakil Ahmed, Group Vice President - Security & Risk, Law Enforcement Program, & Workplace Services at Ola (ANI Technologies Pvt Ltd)</i> <i>Mr. Anuj Rajain, Country Head- Peregrine (Singapore) & CEO, Soteria</i> <i>Mr. Jasvir Gill, CEO, Alert Enterprise</i> <i>Mr. Subhash Patil *, Partner at PwC India</i>
